GALAXY SERIES

RUGGED SINGLE-PHASE OUTPUT

1-2 KW True Online UPS

GENERAL OVERVIEW

Nova Electric's Galaxy-Series true online UPS Systems are high-reliability power sources specifically designed for demanding applications in high shock, vibration, humidity, and EMI environments. They can be built to meet MIL-STD-810, MIL-S-901, MIL-STD-1472, MIL-STD-461, MIL-STD-167 and other standards optionally. Transformer-isolated topology makes these UPSs suitable for very high inrush loads, such as motors and compressors. These models utilize the most durable components, offering maximum field-proven reliability for severe environment and high reliability applications.
